LANGUAGES

French Native

English C2

TECHNICAL SKILLS

Web: React.js, Native JS, Next.js,
Node.js

Software: .NET Core, C#, Python

Relational Databases: PostgreSQL,
MySQL, Supabase

ORM: Entity Framework, Drizzle

Styling: Tailwind CSS, CSS3

Deployment: Cloudflare, Vercel, Azure,
Windows Server

Web Scraping: Puppeteer, Playwright

Automation: Zapier, n8n

Tools: Git, Docker, Postman

PROJECT MANAGEMENT

Agile methodologies (Scrum, Kanban)

Project management tools (Jira, Trello)

IS architecture

Project security & GDPR compliance

Budget management

Risk analysis

Planning and organisation

INTERESTS

Technology, innovation and science

Quantum physics and scientific
discoveries

PROFILE SUMMARY

Full-stack software engineer with 5+ years building and maintaining .NET (C#) and React web applications for thousands of daily users, from legacy migration to greenfield platform design. Experienced in software architecture, relational database design (PostgreSQL, MySQL), and identity and access management, including OAuth authentication and role-based access control. Comfortable owning a service end to end — gathering requirements, supporting users, mentoring junior developers, and iterating based on stakeholder feedback. French native and fluent in English (C2), motivated to apply rigorous, security-conscious engineering to systems that directly enable world-class research.

PROFESSIONAL EXPERIENCE

Freelance IT Consultant Engineer

Since 10.2024

THOUVENIN Nicolas EI

Annecy, France

COGEM Energies

Since 11/2024 (Ad-hoc missions)

- Architected and developed a full-stack comparative quoting platform using **Next.js and React**, serving pricing analysts, salespeople and clients daily
- Designed and implemented **PostgreSQL** entire database schema for storing complex energy tariff and client data
- Created a **dynamic user interface** with Shadcn components and Tailwind CSS for energy tariff comparison and client proposal generation
- Implemented a **real-time data synchronization system** using **WebSockets** to allow salespeople and clients to connect simultaneously on the same document and view each other's actions during calls
- Built **REST API integrations** with multiple external services (CRE tariff data, INSEE address autocomplete, CRM system, etc.) and managed global and per-provider constants for price calculations based on **French regulatory standards**
- Automated PDF generation** for client proposals and specimen invoices
- Implemented **OAuth authentication** with Google and **role-based access control** for users
- Provided training and support** to pricing and sales teams, gathered feedback and iterated on the platform to meet evolving needs
- Managed a junior developer** in work-study program, providing **code reviews, mentorship, and guidance on best practices**

Innovation & Digital Business Developer

09.2023 – 09.2024

COGEM Eni ESP | EPF ENR

Valence, France

- Developed **energetic and financial ROI calculations** automatic workflow using **Google Apps Script** for photovoltaic installations
- Built **automated PDF report generation** system for field sales teams
- Created proof-of-concept **3D visualization system** using **Google Maps geospatial data** for rooftop solar installations
- Collaborated with sales teams to gather requirements and provided **user training**

Full Stack Web Developer Engineer

09.2020 – 09.2023

IzyCardio | Cardioparc

Lyon, France

- Led **complete refactoring** of patient management **full-stack application** serving **thousands of healthcare professionals, medical staff and patients** across multiple clinics
- Legacy system built on .NET Framework (C#) / Razor was migrated to modern **.NET Core backend with React frontend**, improving performance, security, and maintainability
- Designed **MySQL database schema** for patient prescriptions, and medical reports
- Provided **user support and training** to medical personnel

EDUCATION

Master's in Entrepreneurship & Innovation Management

09.2023 – 09.2024

EM Lyon Business School

Lyon, France

Engineering Degree in Computer Science & Communication Networks

09.2020 – 09.2023

CPE Lyon

Lyon, France

Two-Year Technology Degree in Computer Science (DUT)

09.2017 – 09.2020

IUT Savoie Mont-Blanc

Annecy, France
